

# WINDOWS AND DOORS

# TRANSFORM YOUR HOME

**Our window and door range everything to help you give your home a modern edge, or replicate a traditional look.**

Available in a wide range of styles and designs, along with a whole palette of colours, there really is something for everyone.

With maximum energy efficiency and the highest security standards, you can rest assured not only do your windows and doors look good, they're safe, secure and energy efficient too.

# BOOST YOUR KERB APPEAL

There's only one chance to create a first impression, and our stunning windows and doors do just that!

## LET THE LIGHT IN

Gone are the days of chunky PVCu frames, our windows and doors enhance any property with ultra-slim sightlines and modern aesthetics.

## A WORLD OF COLOUR

With a whole range of standard and special finishes, there's the perfect colour for you and your home.

## ENERGY EFFICIENT

Multi-chambered technology means the warmth stays inside your homes. Our windows and doors are also fully recyclable at the end of their lifespan!

## THE CHOICE IS YOURS

Simple and versatile our windows and doors come with a range of options to truly personalise - from Georgian bars to letterboxes to sidelights and more!

## SAFE AND SECURE

Rest assured your family and home are safe and secure - all our products are fitted with multi-point locking as standard and fully tested.

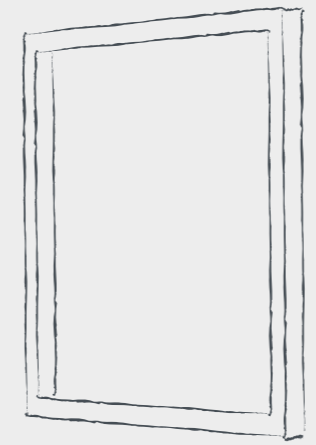

## A QUIETER HOME

Reduce noise in your home with new windows and doors - we also offer triple glazing for those homes near busy roads and airports.

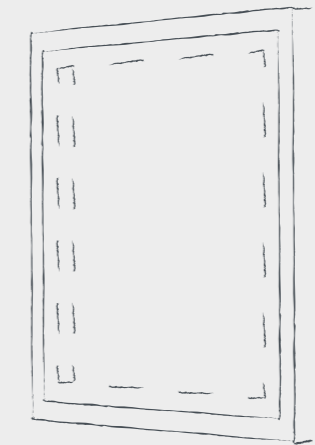

# WINDOW STYLES

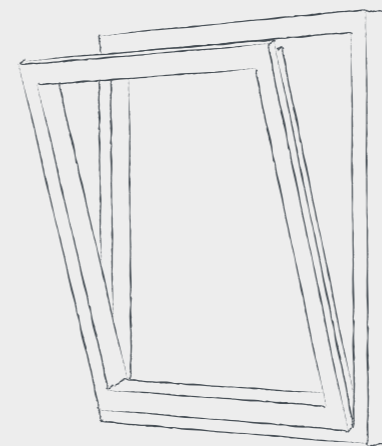

Traditional or contemporary, our windows can be made with a variety of configuration and in a whole host of colours, to perfectly compliment any property.

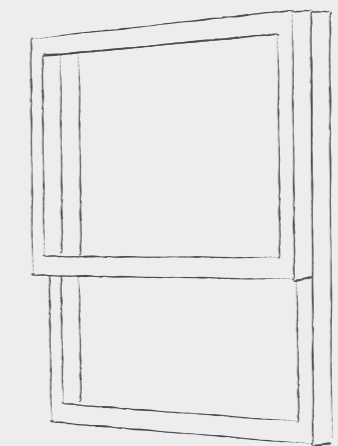

**CASEMENT WINDOWS**  
Casement windows are a timeless classic and remain the no.1 choice for homeowners in the UK.

**FLUSH CASEMENT WINDOW**  
Flush casement windows offer the aesthetics of a pre-1932 timber window but with 21st century thermal benefits.

**TILT & TURN WINDOW**  
Tilt & turn windows offer the ultimate versatility in terms of operation and maintenance.

**VERTICAL SLIDER WINDOW**  
Vertical sliders windows are perfect if you want to maintain the Victorian or Georgian timber window appearance in your home.

# CASEMENT WINDOWS

Caseament windows are a timeless classic and remain the no.1 choice for homeowners in the UK. With the various combinations for fixed and opening sashes, they are the truly versatile choice.

Our casement windows come A rated as standard, which means they are a high performing, energy efficient choice, to help keep energy bills low.

Each window is individually designed and unique to you, with a wide range of colours, hardware and optional extras.

And for your peace of mind, your home will be safe and secure thanks to multi-point locking.

# FLUSH SASH WINDOWS

Our flush casement windows (also known as flush sash windows) are perfectly designed to replace period windows. Whether you choose a traditional or contemporary aesthetic, they are ideal for conservation areas where the need to replicate timber is a must.

Our flush casement windows can be foiled to create a wood appearance and come in a wide variety of colours and configurations. There is a finish to suit not only period and traditional properties but modern ones too.

Whatever look is chosen for your flush casement windows, enhanced security is a priority with our full range of high-performance hardware and multi-point locking.

# SLIDING SASH WINDOWS

Our sliding sash windows (also known as vertical sliders) are perfect if you want to maintain the Victorian or Georgian timber window appearance in your home, whilst upgrading to secure, thermally efficient PVCu.

Sliding sash windows look great in period properties and come in a variety of colours to complement your home.

This time-honoured design maintains the traditional styling with a modern twist, with simple smooth operation and easy to clean sliding panes.

They also make the perfect choice for renovation projects, with the highest thermal efficiency plus approved security performance and a sophisticated mechanism for easy cleaning and ventilation.

# TILT & TURN WINDOWS

Tilt & turn windows offer the ultimate versatility in terms of operation and maintenance.

The inward opening makes them ideal for high-rise of multi-storey buildings, where accessing the exterior is difficult for cleaning and maintenance.

The beauty of tilt & turns, is that they are essentially two windows in one. The tilt operation is ideal for secure ventilation and to keep children and pets safe, whereas the turn function means they can be opened full inwards for easy cleaning – all whilst providing an attractive and flexible window solution that will complement any style of property.

# BAY & BOW WINDOWS

Bay and bow windows are perfect for homeowners looking to upgrade their décor and add a picture window. The difference between bay and bow windows is simply in the number and angle of panes.

Both bay and bow styles extend the body of your home, meaning you get extra room space. They also allow for maximum light to enter your home, thanks to additional glass panels to catch the light.

A bay window is typically three glazed areas (but can have more), with the middle window area being the larger 'picture window'. They sit at between a 25 to 45 degrees angle.

A bow window is more symmetrical and made up of four or five glazed areas, fitted at a 10 degrees angle. This gives them a beautiful curved shape, ideal for those panoramic views.

# YOUR OPTIONS

Available in ovolo, chamfered or flush 70mm profiles, your windows can be fully personalised to suit any home. Choose from 28mm double or 36mm triple glazing together with a wide choice of colours, finishes, hardware and glazing options.

We've included some of the most popular colour options, but there are loads more - just ask your design consultant to see a swatch booklet.

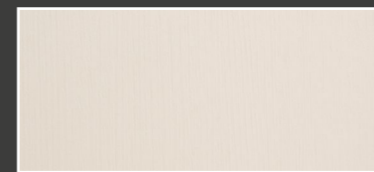

You can also choose from a range of colours for your hardware plus a whole host of options on glazing.

## GLAZING OPTIONS

Your windows come with energy efficient double glazing as standard, but we also have additional options for extra thermal efficiency and decoration.

### Triple Glazing

Triple glazing provides additional thermal benefits and also another level of sound insulation.

### Obscure or Decorative Glass

Choose from obscure glass to give you privacy in any room, or coloured decorative patterns and leads

### Georgian Bars

Emulate a classic look; astragal and Georgian bars can create the look of stylish period-era windows.

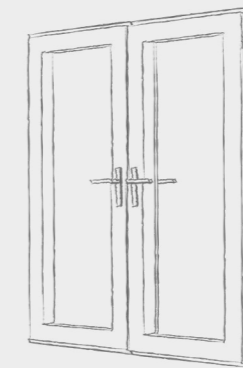

# DOOR STYLES

Whether you need easy access to your conservatory, open up your home into your garden, or create that perfect first impression, we have the door for you.

## COMPOSITE DOORS

Composite doors are warm, safe and secure, featuring a beautifully authentic woodgrain appearance.

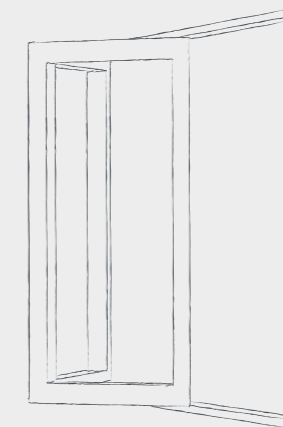

## FRENCH DOORS

French doors are a timeless classic and add style and character to any home.

## PATIO DOORS

Patio doors are an affordable long term upgrade, ideal to connect your home to garden, or on a second floor with a Juliet balcony.

## BI-FOLD DOORS

Bi-Fold doors are a sleek and stylish way to open up your home and really give the wow factor.

# FRENCH DOORS

French doors are a timeless classic and add character to any home. We've brought them right up to date with advanced frame materials.

Our energy efficient sealed units are designed to maximise thermal performance. We have also integrated a range of sophisticated security features for ultimate peace of mind.

# SLIDING PATIO DOORS

Patio doors are an affordable long-term upgrade, ideal to connect your home to your garden or on a second floor with a Juliet balcony.

Our sliding patio doors are available as a two, three or four pane door and are a popular space-saving choice for any home.

# BI-FOLD DOORS

Bi-fold doors are a sleek and stylish way to open up your home and there's no sign that this door trend will be slowing down anytime soon.

The slim aluminium frames give clean aesthetics and allow maximum light into your living space. There are so many options and configurations to choose from. Whether you want dual colour or a low threshold, double or triple glazing the choices are practically limitless.

Let's face it, who doesn't want to be able to throw open a glass wall in the height of summer?

# COMPOSITE DOORS

Composite doors have the look of traditional, high-end timber door but with contemporary touches and a durable interior core. This makes them super energy efficient and weather-proof.

The woodgrain finish of our composite doors is based on an oak woodgrain, creating a beautifully authentic appearance.

Our huge range of colours, styles and glass allows you to truly personalise your door. Each component is fully colour matched guaranteeing you a flawless finish every time.

All of our glazing options are triple glazed and laminated as standard for extra security and energy efficiency.

Green

Blue

Red

All of our glazing options are also triple glazed and laminated as standard for extra security and energy efficiency.

You can also choose from a whole host of added extras, from a knocker to a letterbox. Or how about matching sidelights for even more natural light?

See our dedicated composite door brochure for the full colour range

# SUSTAINABLE PROMISE

We take our responsibility to the planet very seriously. We use recycled and recyclable materials wherever quality is not compromised.

We source any PVCu used from a systems house, who in turn have taken huge strides to recycle and reuse. In fact, new windows and doors are made from up to 50% sustainable PVCu and additional components being 100% recyclable. We also have invested in our own glass crusher, enabling us to compact it and send it away to be recycled.
